

COME JOIN US FOR A FREE PUBLIC HEALTH LECTURE ON: ELECTROMAGNETIC POLLUTION

- Do you use a cell or cordless phone?
- Do you use a computer?
- Do you use PDA's or Bluetooth?
- Is your home, office or school wireless?

IF SO, THIS IS WHAT YOU MUST KNOW :

- Talking 500 minutes per month on a cell phone increases the probability of brain cancer by 140%.
Source: Wireless Technology Research
- Spanish scientists have discovered that a cell phone call lasting two minutes can alter the natural electrical activity of a child's brain for up to one hour afterwards.
Source: Spanish Neuro Diagnostic Research Institute
- EMF is classified as a Group 2B carcinogen under standards established by the World Health Organization's Agency for Cancer Research. The chemicals DDT and lead are also Group 2B carcinogens.
Source: National Institute for Environmental Health Sciences

Are YOU At Risk?

- What is ElectroMagnetic Pollution?
 - Where does it come from?
 - How does it affect our health?
 - What can we do about it?
